
Custom Bars—

From the simple *Wet Bar* to the sophisticated *Topside Entertainment Center*, each MarQuipt bar is unique in addressing the sensibilities and requirements of the discriminating yacht owner.

We will design and fabricate a beautiful custom bar to your specifications so that you and your guests may enjoy the topside of your yacht to the fullest.

Popular features include sinks, refrigerators, ice makers, bottle racks, stove tops, and other custom accessories.

Each of our bars are constructed of the same marine grade aluminum as our davits, cranes, swim platforms, arches, and chocks. Etched, primed and painted with two coats of lustrous epoxy, a custom topside bar is an elegant complement to any yacht.
