

# Docksteps—

Our *Dockstep* is a unique lightweight boarding stair that folds flat for easy stowage aboard, and sets up in seconds when needed. It is designed to be used from the dock and does not attach to the vessel.

Attractive and sturdy, the *Dockstep* is made of anodized aluminum with stainless steel fasteners and non-skid treads for long lasting, trouble-free service. The handrail can be quickly moved to either side, providing safe, convenient boarding wherever your boat is docked.

- Convenient yacht boarding from a dock or narrow finger pier.
- 3- and 4- step models available.
- Easily folds flat for stowing.
- All anodized aluminum construction with stainless steel hardware.
- Stowed height is only 3" (8 CM).

- Treads available with white, black, or grey non-skid or Marinedeck 2000 composite decking surface.
- May be permanently mounted to the dock if desired.
- Optional stowage case with separate compartment for the handrail.

## Operational Height, Weight, and Stowed Dimensions—

<i>Number of Steps:</i>	<i>Operational Height:</i>	<i>Weight: (Approximate)</i>	<i>Stowed Dimensions:</i>
3 Steps	28" (71 CM)	35 LBS (16 KG)	3" x 21-1/2" x 45-1/2" (8 CM x 55 CM x 116 CM)
4 Steps	37" (94 CM)	39 LBS (18 KG)	3" x 21-1/2" x 59" (8 CM x 55 CM x 150 CM)
